

Hello New Scouts, and Scouting Families,

Welcome to Troop 128!

When you fill in the carbon-copy application form for joining the Boy Scout program with our troop, we are able to gather some very basic contact information for your Scout and one of his parents. In order to more fully provide the scouting program to your Scout and your Family, our Troop conducts a considerable amount of administration through the use of its own local database. The use of the local database permits the Troop to track the progress of scout advancement, access emergency information, and to assure that the troop is delivering the scouting program in a timely and effective manner.

Please visit this web page:

<http://goo.gl/forms/MqGqveCs9u>

You will be presented with an online questionnaire. The more fully you can fill in the questionnaire, the more familiar the troop leadership can be with you, your scout, and be prepared to respond the needs of your scout, your family, and the program. Data collected with this questionnaire remains strictly confidential and is controlled solely by the Troop.

If you have questions or concerns, please feel free to contact Mr. Brumleve: [advancement@troop128.net](mailto:advancement@troop128.net)

Thanks in Advance,  
Troop 128
